

Curlers' Successful Season
New Firm But an old Business
Quite Close Now
A Sudden Call
Making Progress
Children's Protective
Act Amended

A well-attended meeting of the Claresholm Curling Club, with W. A. Cornwall in the chair, was held in the Council Chamber last night. The occasion was the annual general meeting, and reports were received from the officers who have been responsible for a most successful season. The financial statement was presented by the secretary-treasurer, R. E. Moffatt, and was most gratifying. During the season 40 members were received as charter members and from each \$15 was received making a total of \$600 from this source. Four paid \$10 for the part of the season for which curling privileges were extended, making \$40 and a loan was floated for \$600. The total receipts were thus \$1100. Out of this amount there was paid for 15 pairs of skates \$277.50, lunch for \$118, building \$170; hardware \$50.20; installing the light and the light account \$67.08; canteen \$10.50; insurance \$10.00; while the other items aggregated \$44.83; thus leaving a balance of \$84.80; thus there remains a few small accounts not settled amounting to \$84.46, among which the item of \$40.00 for the balance of the lumber account is the big one. The operations for the season leaves a deficit of \$16.06, outside of the loan. To meet this deficit the loan will be made upon the members in order to leave next year clear as a start. The report of the finances was adopted. Upon motion the secretary was instructed to make a levy of \$1 per member to pay out-standings accounts and apply the balance on interest on the loan. The election of officers was proceeded with and resulted as follows:

Patron: C. E. Cross, of Calgary. President: Inspector R. E. Tucker. Vice-President: W. A. Cornwall. Secretary-Treasurer: R. E. Moffatt. Chaplain: Rev. Wm. McMichael. Executive Committee: Messrs. Holmes, Duncan, Wicks, and Laing. Messrs. Brown: That the Club accept applications for charter members to make up balance of 40. The candidate if elected shall have full privileges by paying \$5 and the dues as the charter members pay in pay for 1912-1913. Carried. The chairman of the meeting then read the letter to be presented to the Claresholm Park Association and the Claresholm Curling Club. The letter provided that for a nominal annual rental of \$1 the Curling Club have the use of the ground on which their building is erected for 5 years. The Curling Club may use the yard they occupy of the Park Ass'n grounds. They may terminate the lease and remove the building by giving 30 days notice before the expiration of three years from the date of January, 1912. The Park Ass'n have the use of the building for Exhibition purposes and are permitted to place two doors at the western extremity of the building. A clause is to be inserted to prevent any misunderstanding with regard to the right of the Curling Club to remove their building at the termination of the lease. The matter was referred to the Board of Managers. Mr. Watt who was present on behalf of the Park Association was requested to convey to that body the thanks of the Curling Club for their kindness in making so favorable a lease. On motion of Brown, Bernard, the secretary was instructed to write a letter to that body the thanks of the Curling Club for their kindness in making so favorable a lease. On motion of Brown, Bernard, the secretary was instructed to write a letter to that body the thanks of the Curling Club for their kindness in making so favorable a lease.

The Claresholm Curling Club, which succeeded to the shoes of V. A. Porter, has begun active operations and has already disposed of many outfits in this neighborhood. F. E. Torbit is well known in this district and a very prosperous season is predicted for this company. The class of machinery handled has already made friends for itself and with a good sale line in the warehouse and a good line to sell the going is easy.

A New Lease of Life
That the shaking up in the direction of the Footbills Lumber Co. has injected new vigor is proved by the arrival yesterday of a new 100 hp engine and boiler which will be installed as soon as possible by the company in their mill out in the Hills. The cut this season, over a million feet of logs, is far and away above anything attempted before. The lumbermen and the farmers in the district, need not fear a lumber famine with this mill in operation as planned for this season. The mill, since the entry of Mr. Moore, has been fitted in a manner to not only increase the output but to turn out a better and more varied class of lumber products, the new president evidently being seized with the strategic position this enterprise holds in this district not only now but in the immediate future.

Willow Creek Echoes
Put away your skates, O, Northern Lights!
You cannot skate upon the snow. The Spring! Jack Frost no longer bites. And the ice is floating on the lil low winds. And fields are soft as any pillow. The meadow lark is singing on the willow. The swallows soon will be hot as fire. So you can skate no more upon the willow. Now hear about that Masquedade Ball, at Northern Light school house? Mr. Wm. Quill is building an addition to his barn this week. We understand that John Bowie has bought the Wm. Kinney farm, Succow, John. Nels Petersen made a flying trip to his farm a few days ago. Nearly all of the farmers have retired their spring work already. The fall when on Willow Creek is reported to be in first class shape. Mr. and Mrs. J. Stevenson spent Sunday visiting with Mr. and Mrs. A. H. Towell. The main topics of conversation among the "Northern Lights" now-a-days are ranches, railways and reciprocity. Messrs. Will and Jack Stoves, spent Sunday visiting with their parents, Mr. and Mrs. Robt Stove, of Meadow Creek. Miss Carrie Peterson, who spent the winter near Lacombe, is visiting relatives and friends on Willow Creek. Mr. and Mrs. Frank McCown and family, spent Sunday at the home of Mr. and Mrs. A. H. Stevenson.

There was promise of quite a snow storm a few days ago, but, however, the snow melted as fast as it fell, and soon disappeared. It is reported that Miss Muldon children, spent Sunday at a school vegetable and flower garden on the school grounds. This is a splendid idea as it is both instructive and amusing to the little folks. We notice that all of our popular Willow Creek teachers are working a perpetual snow day. Perhaps it is in account of this being "Leap Year". Mr. M. Stevenson, who spent several weeks visiting relatives here, left about a week ago, for east of Claresholm, somewhere. Probably there is some attraction, Mack!

Under the auspices of the Church of England, Miss Jean Logan will produce the "Doll Shop", in which only local people are taking part. Soon the dear old Shopkeeper Mr. Bereton will have the chance to show off his many beautifully dressed dolls of all nationalities. There are singing dolls, dancing dolls, talking dolls, Dutch dolls, Parisian dolls, Japanese dolls, and many others who, when poked up will go through their doll like motions much to the amusement of the audience. Katy, the Shopkeeper's daughter and the two workmen, Mr. Kingsley and Mr. Poven will be kept busy arranging dolls artistically and meeting those so that they may find a ready sale. Many customers will come in with the idea of purchasing dolls. The English family is Mr. Watt, Mrs. Shaw and their daughter Mary Pierce. The amusing Dutchman Mr. Cumming, Bessie, who comes in to buy a doll. One of his brothers is Senator Mitchell, while another is one of the large mines of Nova Scotia. Mr. Mitchell was a self-made man. He followed very successfully for several years the business of railroad contractor and during his period of active business many large contracts were entrusted to him. He had travelled widely and was conversant with many lands. Upon his retirement he made his home in New York City with his wife, now residing during his brief stay in this town. Mr. Mitchell had made many friends and his whole-sold and sincere manner, together with his wide experience, made connection with him a pleasure. He leaves to mourn his loss a wife and two sons, John, the proprietor of the Willow Hotel here, and William, a teacher in Boston. Sympathy is extended to the bereaved friends of the deceased.

Is It Foul Play?
On Monday, April 8, at 11:30 a.m. Gibson, a man living 6 miles north-west of this town. That is the question agitating the public mind at present. Mr. Gibson left home a wagon and horse to Staveley, where he intended taking the train to Claresholm to see Mr. T. C. Milnes about some work. He had \$80 in his pocket and on reaching Staveley took a grain crane for \$180, making \$260 in his possession. The neighbor did not see him after he entered the bank and naturally thought he had gone to Claresholm. He was seen on the train line but was surprised to find that his friend was not among the passengers. He drove home and after a few days' absence Mr. Gibson's whereabouts became a matter of anxiety. Many a man has been placed under a straw stack for less than \$200 and foul play is feared. The account of police is investigating. Inquiry revealed the fact that he did not buy a ticket at Staveley for Claresholm. Mr. Gibson was a man of good habits. While he would take a drink he was never seen under the influence of liquor. There was no reason to believe that he skipped out, as there was no motive. While he owes some money, his assets greatly exceed his liabilities. He may possibly have taken the train to Calgary, but his friends can hardly believe that he would do so. He was dressed in his ordinary working garb.

Securely Tied
The first wedding at the Demonstration Farm occurred last Friday, March 27th, at 2:30 p.m., when Miss Florence G. Ryan, of Wapato, was united in the bonds of wedlock with L. D. Harrison, Mossbank, Sask., a brother of Mrs. J. R. McNeill. The wedding knot was tied by the Rev. M. B. Ryan, of Wapato, Wash., the father of the bride, assisted by the Rev. Wm. McNeill, in the presence of a few of the immediate friends. Mr. and Mrs. Ryan left for Calgary and points west. Upon their return they will make their home at Mossbank, Sask.

As we were going to press last week the news of the death of James Mitchell was not last received. Mr. Mitchell was on his way to Edmonton to look into a real estate proposition there and was breaking the journey for a few hours at Calgary, intending to leave for the north at midnight on Thursday last. He, accompanied by a friend, went to the theatre to pass the time and just as the performance was commencing, in leaving forward to address his companion, he was stricken. Medical aid was summoned but they pronounced life extinct. The news was sent to his son here and John Mitchell went up to Calgary on the next train. The body, accompanied by his son John, was taken to Belfast, Maine, for interment.

The late James Mitchell who was about 68 years of age, was Canadian born, his birthplace being the town of Drummondville, in southern Quebec. One of his brothers is Senator Mitchell, while another is one of the large mines of Nova Scotia. Mr. Mitchell was a self-made man. He followed very successfully for several years the business of railroad contractor and during his period of active business many large contracts were entrusted to him. He had travelled widely and was conversant with many lands. Upon his retirement he made his home in New York City with his wife, now residing during his brief stay in this town. Mr. Mitchell had made many friends and his whole-sold and sincere manner, together with his wide experience, made connection with him a pleasure. He leaves to mourn his loss a wife and two sons, John, the proprietor of the Willow Hotel here, and William, a teacher in Boston. Sympathy is extended to the bereaved friends of the deceased.

The Kickers Organize
An enthusiastic gathering of the lovers of the old game of soccer met in the office of J. R. Watt last night to organize a Football Club. The Club last year got off to a good start but the fact that the former players of the game with outside teams caused the enthusiasm to wane and early in season the Club disbanded. At the meeting last night with J. R. Watt in the chair a good organization was effected. The officers chosen were: J. R. Watt, Pres., J. S. Proven, Sec. Treas., Committee, R. B. McKay, F. J. Delbridge, and John Suedstad. The club was chosen Captain and Coach. Vice-Capt. The treasury was reported as having from last year a balance of \$190, so the Club has a nest egg ready for this season's financing. A game has been arranged for tomorrow at the Exhibition Park at 10 a.m. between teams representing the Bankers and the Town.

Out in Front Now
This week has seen the removal of the firm of Rompage & Kay, the linemen, from their former place of business in the rear of the hardware store of Moffatt & Sons, to a place of their own on Railway St., one door south of the bank of Commerce. The premises under the name of the Central Bank and this new firm will be better able to look after the interests of their patrons in their new stand than before. Their purpose equipping their shop with everything in the machine line that will enable them to give the best satisfaction.

NOTICE
Having disposed of the retail meat part of our business, we are now under the name of the Central Bank Market, to do all accounts, owing us for this section of our business, prior to April 1, 1912, must be paid to J. R. Watt, whom we have authorized to make such collections on our behalf.

James Proven
John Walls

The account recently by the pupils of Miss G. Hirschman, was held in the assembly hall of the public school, on Saturday, March 24th, and was in every way a success. The careful training of the pupils was evidenced by the number who played from memory, and much credit to the both teacher and pupils. Parents present did not fail to recognize the great benefit the children derive from recitals, and should encourage the children and cheer the teacher by their presence at these functions.

The following is the program rendered:
Duet, "The Brookside," Mill Tschick, Burpee and Nat Stoves; Scott Scotch, "Fluttering Leaves," Bugle, Nat Stoves; March, J. W. Dione, Edith Brown, Selections, Minnie Holmes, Bicyde Watta, Blose Orman Brown; The Brookside, Selected, Mary Cornwall; Waltz, Kragman Norma Holmes; Spring Song, Guretti Hansi Hutter; Christmas, Watta, Selected, Ruby Evans; The Bold's, Lullaby, Kragman, Bessie Holmes; Parole, Lieber, Jessie Elverum; My Showers, Bessie, Elizabeth Moore; Waltz, Kragman, Edith Teskey; Butterfly Schottische, Engelmann, Anna Milnes; Folded Wings, Forman, Susan Sharples; Maple Bells, Selected, Alta Teskey; Autumn Leaves, Engelmann, Alice Simpson; The Fountain, Bonn, Edith Corbett; Morning Prayer, Stobbing, Morley Tibbison; In Twilight, Engelmann, Shapson, Sonatia, Cleveland, Dargers; Love's Lullaby, Engelmann, Miss Ringrose; Nereus, Neria, Kithley Knight; Spring's Awakening, Minnie, William McKinlay; The Fairies, Chorus, Chorus, Leona Scholze; Nocturne Op. 9 No. 2, Chopin, Pearl Gray; Valse Brillant, Moszkowski, Gertrude Malchow.

A Live, Holed
The regular meeting of the U. F. A. met at Fire-Mile School house on Friday evening last. A good attendance was present. Vice-President Leura occupied the chair. After the reading of the minutes the resignation of G. Malchow as president was read. Mr. Malchow had proved himself a good president and it was with much regret that his resignation was accepted. Having removed from the neighborhood to Staveley, Mr. Malchow felt it was impossible to perform all the duties of that important office.

Nomination was opened for to fill the vacancy and John Suedstad and Thos. Brown were nominated. Thos. Brown was chosen to other duties declined the honor and J. Brown was declared elected by acclamation. The program proved very interesting and was much appreciated. Mr. Bryan of Claresholm favored the audience with three songs, all of which drew forth a hearty applause. J. W. Hallett sang a solo and gave a stump speech and recitation which greatly pleased the audience. Violin performances by J. Suedstad and J. T. Beasley and Gramophone selection by R. E. Beck helped to make up of the most enjoyable entertainments of the season.

After the program business was resumed. A motion to hold the next large dance at the summer on the 1st Saturday of next month commencing with the 1st of May was carried. Other business matters were reported by the Secretary and nothing was given of the various articles that could now be purchased through the Union. Com.

TENDERS WANTED
Tenders will be received by the undersigned for excavating a cellar 13 feet by 16 feet, 1 foot deep under the name of the Central Bank Market, to do all accounts, owing us for this section of our business, prior to April 1, 1912, must be paid to J. R. Watt, whom we have authorized to make such collections on our behalf.

An amendment to the Children's Protection Act provides for the licensing of all vendors of newspapers, small wares and of bookstalls. The amendment, as set forth, states that no municipality shall grant a license to any child under the apparent age of fourteen years, unless such a child shall present authority in writing from its parent or guardian.

Metal badges should be issued, bearing the number of the license issued, and it becomes the duty of police officers of the city, or in cases where a special children's officer is employed, of that particular officer, to see to it that the news vendors wear their badge upon a conspicuous place on their clothing.

Provision is made whereby justices of the peace or magistrates may impose a fine not exceeding \$5.00 and costs, for anyone who violates the conditions of the Act. This is a piece of much needed legislation, and the effect in Alberta should be most marked in the course of the next six months. The city of Ottawa has a by-law which was introduced in January 1910. The effect of the by-law is most satisfactory according to the Chief of Police in that city. Cleveland, Ohio, has licensed its news vendors for the last fifteen years, and opinions, which were solicited from all over the Dominion, brings the unanimous verdict that an Act requiring municipalities to issue such by-laws would be for the best interests of the children all around, as it would have a tendency to prevent truancy, and it would reduce good behavior on the part of the news-vendors, bookstalls, etc., the test of having the badge cancelled, as well as the fine, would bring them to a higher point than is usually in effect in the cities in the West.

The Province of Manitoba issues all badges from the Provincial office of the Superintendent of Neglected Children. The badges merely being sent to the police of the various municipalities to be distributed, and a record in turn being sent into the office of the Superintendent. This system is a very commendable one, does not relieve the municipality of any responsibility in enforcing the Act.

Waste in The North

The survey party sent out by the Forestry Branch of the Department of the Interior to explore the country around Lesser Slave Lake, Athabasca, has found that there is, elsewhere throughout the northern forest country, a greater part of the merchantable timber has been destroyed by fire. The whole country was originally covered with a dense growth of white spruce, black spruce and lodgepole pine which appear to have escaped fire up to 1885. Fires which have started since that date have consumed large areas. Timber which has escaped fire shows that the previous forest was of a higher and valuable. The forest here produces occasionally as much as thirty thousand feet, board measure, of timber per acre. This is a greater quantity than is found in either Manitoba or Saskatchewan.

The survey party reports that around Lesser Slave Lake there is a large area of land too high and hilly for agriculture. This land is admirably situated for the production of spruce and lodgepole pine timber. In order that it may be properly utilized in the future and protected from fire, the Forestry Branch is seeking to have it set aside as a permanent forest reserve. The timber from such a forest reserve would be accessible to the Edmonton district. It could be floated to the coast by the Athabasca River, on Landing, and then carried down the river to a comparatively low cost.

Of Interest to Ranchers

The Forest Reserve, recently created on the west slope of the Rocky Mountains from the International Boundary north to beyond the Athabasca river, bears an important relation to the live stock industry of western Alberta. A great number of cattle and horses find summer range within the boundaries of this Reserve, particularly in that portion lying south of the main line of the C.P.R. Up to the present time this use of the public range has been entirely unregulated, and while none who are familiar with the situation state that overgrazing has not yet occurred, especially in limited and isolated localities, yet there is a steadily growing tendency to increase the number of stock using the ranges within the Forest Reserve not only on the part of the adjacent ranch holders but also, particularly on the part of stockmen living some distance from the mountains and of stock owners who purchase cattle singly for speculation ranging from for a season on the rich grasses of the mountains, feeding over winter on the grain fields of the adjacent foothills and making a profitable sale in the spring.

The fact that the Forestry officials have taken charge of the administration of the Forest Reserve and of the local ranch owners that some sort of government control of the grazing of stock within the Forest Reserve is desirable. The objects of this control are:

(1) The protection and conservation of the grazing resources of the Forest Reserve.

(2) The protection of the live stock industry and its establishment on a permanent basis through proper use and improvement of the grazing lands.

(3) The protection of the settlers and of those whose long use of the range entitles them to a preference in such use, from unfair competition in this use.

To accomplish this object the Department has in view the establishment of a system of classification of ranges according to their place and use and the way which they are made of the range.

and of the issuing of permits to such use of the range, charging for the same a nominal fee which shall reimburse the Government for the expense of administration and assist in the protection of the range and its further improvement. The details of this system of permits have not as yet been worked out and before promulgating the grazing regulations in this matter it is the desire of the Forestry officials to secure the cooperation and advice of the stock owners who have heretofore made use of the range within the Forest Reserve. It is felt that the advantages of the permit system, under reasonable government restrictions, will be apparent on the consideration. The live-stock industry in western Alberta is certain to assume large proportions and that within a very few years vast quantities of winter feed are available in the lower foothills and adjacent prairies. The number of stock which may be handled at a point is governed entirely by the capacity of the summer range within the limits of the range. The carrying capacity of these ranges naturally has a limit. If stock is beyond this limit, or if the stock on range is improperly handled, the range is depleted. The initial range owners in quantity and value, gradually the grasses and other range plants are worn and the less stock that can be handled, the less the carrying capacity of the range and the carrying capacity of the range is diminished. Such a range is said to be overgrazed, and a badly overgrazed range requires much time and careful treatment before it can again be brought back to a normal condition. As stated above, overgrazing has not yet occurred within the Rocky Mountain Forest Reserve except in isolated localities. Experience in the States, under similar conditions, has shown, however, that an excessive decrease in the carrying capacity of the range to the great injury of the interests dependent on this range. This overgrazing does not, as a rule, result from the grazing of stock owned by settlers living adjacent to the Reserve whose dependent upon the use of the public range for a livelihood. As a general rule

such users are careful to restrict the number of their stock to such an amount as will secure the full use of the range without danger of depletion. Where, however, the use of the range is unregulated and is under no sort of government supervision such users have absolutely no protection in their ranges. They are liable at any time to find their range occupied by the stock of some owner living many miles distant from the Reserve or even by stock brought solely for speculation and run on the range on a single season with absolutely no thought for its preservation. This condition has not yet become serious in western Alberta, but that it is imminent is evident to all who have been thought to the tendencies in the live-stock industry of the Province.

In establishing the Rocky Mountain Forest Reserve the Government had in view not only the preservation of the timber of the mountains from the ravages of fire and the conservation of the water which is so vitally necessary to the welfare of the irrigation and power interests, but also the placing of suitable restrictions on the use of the grazing lands within the Reserve so as to insure the most complete use of these lands compatible with maintaining them in a condition of constant productivity.

The present most vitally interested in this matter are the ranch owners who have used the mountain ranges for years and the settlers along the main line of the Reserve who are dependent on these ranges for summer feed for their stock. The Forestry officials at Calgary wish to present this matter to the consideration of such users of the Reserve and have recommended that committees of stock owners representing the Forest Reserve be in each grazing district be designated by the Department as Advisory Boards who shall be consulted by the Forestry officials in regard to the proposed regulations and whose advice shall be followed wherever it appears that it represents the wishes of the majority of the stock owners of the region and is in accordance with the interests of the Forest Reserve.

The grazing districts within the Reserve which should be thus represented are as follows:

Grazing District No. 1. From the International Boundary line north to the Crow's Nest Pass.

Grazing District No. 2. From the Crow's Nest Pass north to the divide between the Highwood and the Old Man rivers or approximately to the boundary between Townships 14 and 15.

Grazing District No. 3. From the north boundary of District No. 2 to the line between Townships 18 and 19.

Grazing District No. 4. From the north boundary of District No. 3 to the Stony Indian Reserve.

Grazing District No. 5. From the Stony Indian Reserve to the Clearwater river.

Grazing District No. 6. From the Clearwater river to the Saskatchewan river.

In order that this matter may be placed upon a definite basis, the stockmen within the above-described districts are requested to select representatives who shall constitute the Advisory Board for that district and shall be empowered to act for the entire body of stock owners making use of public range within the boundaries of the district. These Advisory Boards should consist of either three or five members and when selected should notify the District Inspector of Dominion Forest Reserves at Calgary, who will arrange for a conference at an early date. Such notices should be filed with the District Inspector not later than April 1, 1912. Furthermore, the District Inspector would be pleased to hear from any users of open range land within the Forest Reserve who may have suggestions to make in regard to the proposed regulations and is desirous of getting in touch with as many users of the Forest Reserve grazing lands as possible in order to obtain response or by personal conference.

Most people die from a break-down of the power of the system from a ripe old age. This is not the case with the New No. 11 Massey-Harris Drills, as those who use them say they are very strongly built, doing their work uniformly and well standing very hard usage.

The Harvest depends very largely upon Soil Type. The New No. 11 Massey-Harris Drill was built specifically for Alberta, and will do your work well under all conditions.

The Park Assoc'n

The annual meeting of the Claresholm Park Association was held on Monday last at 7 p.m. Over 20 were present or represented by proxy. The report of the officers for the current year was received and accounts approved. The election of directors resulted in the following being chosen: D. B. Vanhorn, W. H. Lindsay, John Robertson, O. J. Beggs, Booth, J. T. Kingley, J. R. Moffatt. John Robertson was elected President and J. R. Watt Secretary. In future the annual meeting is to be held a week before the day fixed by the government for the annual meeting of the Agriculture Society. W. C. Miller, D. B. Vanhorn and J. R. Watt were appointed a committee to interview the council re the submitting of a by-law exempting the Park Association from taxation in the Association to guarantee the cost of submitting the same. The preparation of a program for the annual fall fair on August 29th and 30th moved in the hands of the directors.

Scale of Prices for 'Doll Shop'

The first three rows at the Opera House for the "Doll Shop" on Tuesday and Wednesday nights will be reserved for children, who may secure tickets at the box office the night of the show at 50 cents each. Rows three to twelve will be reserved and reserved for children, who may secure tickets at the box office the night of the show at 50 cents each. Rows three to twelve will be reserved and reserved for children, who may secure tickets at the box office the night of the show at 50 cents each.

Mr Farmer do you want the best implements and machinery that money can buy at prices that are right? You can get them, also a new deal, at the Massey-Harris Agency.

PAPER MONEY.

It Was First Issued by Count de Tenedilla at Alhambra.

The Count de Tenedilla, well besieged by the Moors in the fortress of Alhambra, was desirous of gold and silver wherewith to pay his soldiers, and he began to murmur, as they had not the means of purchasing the necessaries of life from the people of the town.

"In this dilemma," says the historian, "he decided the most audacious scheme. He takes a number of little morsels of paper on which he inscribes various sums, large and small, and signs them with his own hand and name. These did he give to the soldiers in earnest of their pay. How, you will say, 'are soldiers to be paid with scraps of paper?' Even so, and well said, too, as I will presently make manifest, for the good count issued a proclamation ordering the inhabitants to take these morsels of paper for the full amount inscribed, promising to redeem them at a future time with gold and silver. Thus by subtle and most miraculous alchemy did this cavalier turn worthless paper into precious gold and silver and make his late impoverished army abound in money."

The legend adds, "The Count de Tenedilla redeemed his promises like a loyal knight, and this miracle, as it appeared in the eyes of the world, was the first instance on record of paper money."

GETTING UP STEAM.

A Young Engineer's Answer to a Druff and Persistent Examiner.

A bright young fellow came up for the candidates' examination at Annapolis one day, and the judges asked him the usual questions. "Can you answer readily enough at him and he answered them all with a flourish of the pen." "How do you say you proceed to get on?" "I don't," he replied, "I just gibbered described the process of building the tower, testing the water, the boilers and all that."

"And then?" snapped the examiner.

"The young fellow twisted his cap in his hands and thought up a few more details."

"And then?" rasped the examiner once more, pinning his lips and asking if something important had been

The cadet did the best he could, still adding such details as he thought the farmers doors after the first of the coil in. The moment he stopped the same old question burst out: "And then?"

"And then," repeated the cadet slowly, "I took my cap to my head and gazing at the ceiling, and then I should look up to heaven and think I am ready to go home if the honor front comes out."—New York Sun.

Heated the Best Collection.

Some years ago a cruel blow was played on the ardent devotees of book-collecting. A number of well known book lovers in France and Belgium, who had collected a catalogue of all the books to be sold at Blois, a small town near Paris. They were only 202 items in the catalogue, but all the books were examples, for it was announced, "the late owner, M. de Port, has decided to sell his library in the book room. On the day appointed for the sale swarms of collectors and representatives of all the great national libraries, descended on Blois, only to find that both de Port and his library had disappeared like a puff of smoke."

Six of One, Half Dozen of the Other.

One of the most discouraging features of life in Tripoli, as in other Mohammedan cities, is the prevalence of the plague, the fatal disease, the plague in even more ignorance and constant, it directed the plague. A missionary for whom the life of a missionary was preparing a paper noticed that she set aside in a futile way a small part of the ten and sugar.

"Why do you do that?" was asked.

"She said the woman, 'I must give against the day when my husband may divorce me.'"

She said the woman, "I must give against the day when my husband may divorce me." She said the woman, "I must give against the day when my husband may divorce me."

She said the woman, "I must give against the day when my husband may divorce me." She said the woman, "I must give against the day when my husband may divorce me."

Charge in Elephants.

An elephant with a good natured grin perhaps the best instance of placid courage—courtesy, the which persists in the face of knowledge and discrimination—to be seen in the animal world. They will submit day after day to have painful wounds dressed in obedience to their keepers and meet danger in blind obedience to their orders, though their intelligence is sufficient to understand the peril and too great for man to trick them into a belief that it is unimportant. No animal will face danger more readily than a blind—London Spectator.

Careful.

He would have entered her in a way, she said, but she warned him "back." She said imperiously, "You must not enter! I am warned."

"Better try heart," she answered.

"By my gown,"—London Tit-Bits.

Skin of the Turkey.

The skin of the turkey, cleaned, stretched and dried, is used by the Albanians to form window panes.

ROUTED THE "ROGUE."

A Bad Elephant, a Lighted Lamp and a Lucky Show.

An odd occurrence took place in the case of three men who were on a tiger-hunting expedition in India. The tiger, after a long and fruitless search, was at last sighted by one of the men. The tiger, after a long and fruitless search, was at last sighted by one of the men. The tiger, after a long and fruitless search, was at last sighted by one of the men.

The men had no time to catch up their rifles, they knew for the appearance of the animal that he meant mischief. Lifting up the roof of the tent with his head he threatened to swing out his trunk at the man nearest him.

At this the hunter sprang to his feet and, seizing the lighted lamp from the table, hurled it at all his strength against the animal's forehead. The glass broke at the blow, and the blood oiled covered the animal's eyes with a sheet of flame.

With a cry of terror the beast dashed frantically back, over the curtain and fled across the country, vanquished and humiliated. The tiger, after a long and fruitless search, was at last sighted by one of the men. The tiger, after a long and fruitless search, was at last sighted by one of the men.

MODES OF TRAVEL.

From the Jaunting Car to the Modern Automobile.

The first jaunting car was established in Ireland 1815 by the Marquis of Eglinton. It was a simple wooden box with four wheels and drove every day to Caher and Caher, carrying two or three passengers.

The extension of modern manufacturing towns and cities demanded greater convenience, which was supplied at first by the omnibus line, which up to 1850 were the chief means of urban and interurban transportation. To these succeeded the street car, which was supplied by horse-drawn cars, and then the electric trolley, which was supplied by electric power.

Went—Don't Be a Goat.

The goat will not bawling thoughtlessly stopped and rubbed his head against the side of the house. He rushed the tenant and fiercely upbraid.

"But I'm quite sure," said the latter, "that I've rubbed your house no harm. Besides, I'm a goat, and goats are supposed to rub their heads against the sides of the houses of the owners."

"You're a goat," said the latter, "that I've rubbed your house no harm. Besides, I'm a goat, and goats are supposed to rub their heads against the sides of the houses of the owners."

"You're a goat," said the latter, "that I've rubbed your house no harm. Besides, I'm a goat, and goats are supposed to rub their heads against the sides of the houses of the owners."

MANY HOMESTEADS OPEN FOR ENTRY ALONG THE C.N.R.

It is estimated that there are over 150,000 free homesteads open for entry in the three prairie provinces, Manitoba, Saskatchewan and Alberta. This means that over 25,000 acres are being given away for less than ten cents an acre. The entry fee for one homestead of 160 acres is \$10. It will mean that when all these homesteads are disposed of the government will have received \$1,500,000 for twenty-five million acres of land. Of these homesteads, 115,154 are located adjacent to the Canadian Northern Railway, and 35,000 of them are within twenty miles of existing C.N.R. lines, many of these being "thin two or three miles of a railway service."

Full detailed information as to where these homesteads are, the nature of the soil and the general description of the country in which they are located, is given in a pamphlet recently issued by the Canadian Northern Railway.

The pamphlet is beautifully printed with three-color half tones, the cover representing a recently arrived immigrant driving away from the village out to his homestead. It being the veterans are shown in the distance, with a blue of red, green, and gold. Mr. Homestead has all his goods and chattels in the wagon behind him and is starting his life anew, under the best of auspices.

The pamphlet also contains a map which shows in a general way the location of the homesteads in relation to the railway lines. A list of Government Land Offices for each district where entry for homesteads may be made is included, and each office is complete in every way.

Copies may be had from Mr. R. Creelman, General Passenger Agent of the Canadian Northern lines, in Winnipeg.

Various Sets
"You say you can get me in society?"
"Yes, but we must plant camellias. Now, which crowd do you want to get in with, the brave set or the dainty set?"

Would Be Sensible.
"Tender is an early bird. Seeks first breakfast."
"Yes, and it gave me quite a start at first. For a moment I thought the intelligent bird was wearing a chest protector."

Uncle Pennycuik Says:
A spiteful girl is a nuisance. It is too faintly to get carried over, but who can get away with thirty or forty letters sandwiched between the corners of a newspaper.

Mr. MacTavish attended a christening where the hospitality of the host knew no bounds. In the midst of the celebration Mr. MacTavish rose up and made the rounds of the company, bidding each a profound farewell.

A Synonym
"Can't you think of a more refined term than 'in the wrong' to describe him?"
"Well, I might refer to him as the ultimate comical."

Germany takes the war aeroplane seriously. Armed automobiles for training aerial craft are now being built by the German army. They have a turret at one end, from which a quick-firing gun points perpendicularly upward, and a cellular ammunition magazine at the other, with a protected compartment for the chauffeur.

Social statistics of the Lancashire industry show that 12 per cent. of the manufacturing workers of the mills, 42 per cent. of the superintendents and 67 per cent. of the assistant superintendents are of working class origin.

Too many of us men fall fully to appreciate the value of a good home and its keeper. Not much credit is given for the hours spent over the hot stove, the many backaching broom strokes and the many stitches taken.

Some wretched man writes: "The average man can make about a hundred different kinds of a foot of mud, but when it comes to shoeing his feet, it wants two or three women and a wedding."

CONGO GUN RUNNING Alleged Illegal Traffic by Belgian Authorities.

A correspondence has taken place between the Congo Reform Association and the foreign office at London in respect to "the internationally illegal traffic in arms pursued by the Belgian government" in the Congo. Mr. Grey having pointed out that "steps are being taken by the Belgian government to remedy the evil." Mr. Morel replies that that statement does not appear to be in any sense conclusive. He states that the traffic in ivory and rubber still goes on in which payment is made to the natives in guns and ammunition. He concludes: "The evil in question is a creation of the Belgian government's predecessors. It has been perpetuated ever since annexation by the Belgian administration. The Belgian administration has admittedly obtained large sums by this carrying on a traffic which is an offence against the law of nations, and which, as Acting Consul Armstrong remarks, is a positive offence under the laws not only of the Belgian Congo, but also of the neighbouring colonies."

LET MOONEY DO IT

SPRING IMPURITIES IN THE BLOOD

A Tonic Medicine is a Necessity at This Season.

Dr. Williams' Pink Pills for Pale People are the all year round tonic for blood-builder and nerve-restorer. But they are especially valuable in the spring, when the system is weakened by impurities as a result of the inactivity of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to make new, rich, red blood.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the outlet to discharge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will stop the coughing. It is in the spring that the cough is most frequent, and it is at this time that the blood is most in need of purifying and enriching, and every dose of these pills helps to make new, rich, red blood.

The First Thing. There is a tradition that a Dutch silversmith pondered long and anxiously in the slow-working season which he deemed his brain—a notion for a trinket, a fad, for a dangled lid of Holland. It must be a useful trinket, albeit a costly one, used for so good a samprass, as Dame Alice Van Rensselaer states the matter. The thing was quickly worked in precious metal and was sold as the brain was used for the Dutch first thing—Century Magazine.

Any wife will say that what she dearest does in the house is to be a symmetrical husband: other things are good, but none so important.

If you never plan bigger than you do you never will do as big as you may.

Shiloh's Cure

quicker stops coughs, cures colds, hoarseness, cures all throat troubles.

Poverty
Poverty has been assigned by an all-wise Providence in order to make the rich humble. Without poverty the rich would not know how well off they were, and they would not know their own weakness. It is a necessary evil, and it is a necessary lesson. It is a necessary lesson to the rich, and it is a necessary lesson to the poor. It is a necessary lesson to the rich, and it is a necessary lesson to the poor. It is a necessary lesson to the rich, and it is a necessary lesson to the poor.

The Very Last Thing.
The heavy-farced man owned the gunpowder factory and the lean, cadaverous person by his side acted as foreman and general factotum. "Yes, sir," remarked the latter to the master: "your old bill is asked, right enough."

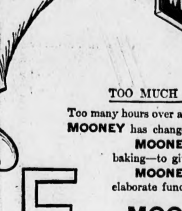

Great System
"This winter air is tickled from," said the brick kiln.
"That's what you are wrong," replied the man from Chicago. "The winter air is tickled from the bottom of the kiln, and it is only when the kiln is cold that it is tickled from the bottom of the kiln."

Practical Hygiene
During a recent epidemic of spinal meningitis in Dallas, Secretary of Health Casey, of the health department, went with a sanitary inspector to the home of a man who had died of the disease. He found the man's room in a state of extreme filth and dirt. The man's room was a filthy, dark, and crowded place, with no ventilation and no light. The man's room was a filthy, dark, and crowded place, with no ventilation and no light.

EATON'S "WESTERN CHIEF" PLOWS

There isn't a plow on the market that is better made or has better material than Eaton's "Western Chief" plow. The proof of this statement is in our remarkably light examples. You have two opportunities of getting this plow. First, you can get it on a trial basis. Second, you can get it on a cash basis. In either case, you will find it to be a most reliable and efficient plow. It is a plow that will give you the best results for the least money. It is a plow that will give you the best results for the least money.

A FEW POINTS OF SUPERIORITY IN OUR PLOWS

The One-Place Frame is made of channel steel with heavy frame members to which the plow is attached. This makes the plow very strong and durable. **Patent Foot Lift** and **Patent Foot Drop** are features of the plow. **Patent Foot Lift** is a device that allows the plow to be raised and lowered without the need of a horse. **Patent Foot Drop** is a device that allows the plow to be raised and lowered without the need of a horse.

Wheels are arranged on a single axle, and the plow is very light and easy to handle. **Wheels** are arranged on a single axle, and the plow is very light and easy to handle.

Aid To Thoroughbred Stations

The policy initiated in 1911 by the Department of Agriculture with reference to the granting of aid, under certain conditions, to the owners of thoroughbred stations is generally meeting with approval and is accomplishing, in part at least, the objects sought when the policy was undertaken. Amongst other things, owing to the rigid conditions imposed, it is encouraging those maintaining really high class horses and is serving to or causing the system of breeding followed in different communities where thoroughbred stations are located. The stimulus given, in this manner, to the use of thoroughbred blood will, it is believed, lead to an improvement in the light horse stock of the country. Thoroughbred stallions, if really good individuals, may be expected to exert such an influence, in the development of Canadian horses for saddle and harness use, as is greatly needed and greatly to be desired. The premium placed upon quality, soundness and popularity, through the grants awarded by the Department is serving to check the use of unsuitable ones and is tending to conserve a type of Thoroughbred, the utility of which is beyond question.

While, as perhaps should be stated, it is not the intention of the Department to encourage the breeding of thoroughbred horses or to develop a type in light horses approximating closely to that of the thoroughbred, there is no question but that a strong infusion of thoroughbred blood in the light legged mares of the country will be of inestimable value in improving the quality of the stock got from them by stallions of the various light harness breeds.

Believing himself to be justified, therefore, in further prosecuting the policy begun last year, the Honourable Martin Burrell, Minister of Agriculture, has authorized the continuation of the grant, to be available for all thoroughbred stations, standing for public service during the season of 1912, which comply with the conditions imposed by the Department.

The conditions under which assistance will be given are as follows:—

(1) All horses on account of which aid is given by the Department must be registered in the Thoroughbred Stud Book of Canadian National Live Stock Records.

(2) Horses shall be of good size, quality and conformation and shall be free from all hereditary unsoundness; these conditions to be ensured by submission annually to a thorough examination by the hands of the Veterinary Director General or such other members of the veterinary staff of the Department, or other persons as the Minister may from time to time appoint for this purpose.

(3) Horses so approved shall be duly and properly advertised to stand and general conditions usual in the districts in which they are to be kept, at an annual service fee (except in the case of thoroughbred mares) of not more than \$10.00 to insure such service fee to become due and payable only when mares prove to be in foal.

Any person, firm or corporation owning or controlling any Thoroughbred Station is required to which all of the conditions above set forth have been duly and properly fulfilled, shall, on production of satisfactory evidence thereof and of the fact that a reasonable number of mares, other than those thoroughbred mares, have been served during the season, be entitled to receive at the close of each such season the sum of \$250. from the funds of the Live Stock Branch. If, in the event of a horse dying or becoming incapacitated for service during the season, an approved substitute is immediately placed in the same district, the Minister may, after the consultation of the Veterinary Director General, authorize the payment of the subsidy above mentioned.

The necessary forms will be furnished on application to the Veterinary Director General, Live Stock Commissioner, Department of Agriculture, Ottawa.

Camp For Teachers

A Six Weeks' Course In Physical And Military Training.

A six weeks' course in Physical and Military Training for Teachers will be given in Calgary this year beginning during the first week of July. In order that the teachers will have the opportunity of observing Cadet Corps in training the Cadets of the district will also go into camp for a few days during the first week of the Teachers' Course.

The teachers will receive pay at the rate of \$1.00 per day and in addition will receive rations at the regular rate and quantity as is supplied in lieu of the monetary allowance. The usual blankets will be provided but it will be optional with teachers to provide coats for themselves.

As the number is strictly limited to fifty teachers, those desirous of taking advantage of the course should forward their applications immediately either to Col. E. A. Cruikshank, District Officer Commanding at Calgary, or to D. S. MacKenzie, Deputy Minister of Education, Edmonton.

The Prize Winners

In Physical Training

The following letter has been received by the Review:—

Headquarters, Military District No. 13, Calgary, Alta.
From the District Officer Commanding, Military District No. 13.
To the Editor Clareholm Review:
Sir, I beg to advise you that prizes for physical training, etc. for the year 1911 have been awarded by the Local Council of the Strathcona Trust to the following schools in the Murchell Localities:

I have the honor to be, sir,

Your obedient servant,
E. A. CRUIKSHANK,
Lieutenant Colonel Commanding
Military District No. 13.

Michael Inspectorate, Joseph Morison, Inspector, Murchell.

Be Careful In building that Home.

POOR LUMBER gives a house a cheap shabby look which makes it difficult to rent. If it is to live in, you want to be proud to show it to your friends, and the fuel bills are large where low grade lumber is used. We make a specialty of high grade and 'classy' material that you will want to use. We have built up the largest retail business in Western Canada by being very fussy as to grades and selling better stuff than is sold elsewhere at prices as low as those asked for the inferior kinds. If your contractor uses CROWN LUMBER it means that he is a man who wants the best of everything and it is the best recommendation he could have!

CROWN LUMBER Co. Limited.

Tell Them To Come Here

Kassas City, Mo., March 25, 1912.
The Editor Review,
Dear Sir:

Four weeks ago I sent you an account of what was considered the worst snowstorm ever seen in South Missouri, but all records have been smashed last Saturday and Sunday. You will see by the photos I am inclosing, that the snow is several feet deep here on the streets, that automobiles and wagons are stuck fast everywhere. I was so fortunate as to have just come in from a 200 mile horse-back ride when the storm broke loose. This is the worst weather I have ever experienced in any country in the world, and if any Missourians in your neighborhood read this, they may thank the Lord, that they are basking in the sunlight of Southern Alberta, in place of shivering in the slush and snow of this Equinox climate.

Yours respectfully,
Gustav J. Schopf.

Conditions of the Rumely Tractor Sweepstake

Lethbridge, Alberta, April 4.
Chairman J. W. McNeil, of the Executive Committee of the International Dry-farming Congress, announces that he has received entries for the grand sweepstake prize of a Rumely oil pull tractor engine, valued at \$2,500, for the best bushel of hard wheat, from all parts of the world—from Maine to Texas and from Oklahoma to the furthest point in the Peace River region of Northern Alberta on this continent. One of the entries is a Maine farmer, and he claims he can grow wheat that will make the entire world sit up and take notice. Another in Oklahoma has already drawn an order upon the chairman for the tractor, feeling sure he will win, hands down. Australia will be represented, and probably Hungary, Algeria, Argentina and Russia, and when the judges begin their task they may be confronted with many carloads of the choicest wheat that ever was grown, much of it hand picked, it is expected. The conditions are that the wheat must measure and weigh to a standard bushel, it must be hard wheat and grown in the season of 1912 under dry-farming conditions, that is, where the annual rainfall is less than 20 inches and without irrigation.

Actual Starvation

Facts About Indigestion and Its
Relief That Should Interest You

Although Indigestion and Dyspepsia are so prevalent, most people do not thoroughly understand their cause and cure. There is no reason why most people should not eat anything they desire if they will only chew it carefully and thoroughly. Many actually starve themselves into sickness through fear of eating every good-looking, good-smelling, and good-tasting food, because it does not agree with them.

The best thing to do is to fit your self to digest any good food. We believe we can relieve Dyspepsia. We are so confident of this fact that we guarantee and promise to supply the medicine free of all cost to every one who will use it, who is not perfectly satisfied with the results which it produces. We exact no promises, and put no one under any obligation whatever. Surely, nothing could be fairer. We are located right here, and our reputation should be sufficient assurance of the genuineness of our offer.

We want every one troubled with Indigestion or Dyspepsia in any form to come to our store and buy a box of Rexall Dyspepsia Tablets. Take them home and give them a reasonable trial, according to directions. Then, if not satisfied come to us and get your money back. They are very pleasant to take; they aid to soothe the irritable stomach, to strengthen and invigorate the digestive organs, and to promote a healthy and natural bowel action thus leading to perfect and healthy digestion and assimilation.

A 25c package of Rexall Dyspepsia Tablets furnishes 15 days' treatment. In ordinary cases, this is sufficient to produce a cure. In more chronic cases, a longer treatment, of course, is necessary, and depends upon the severity of the trouble. For such cases, we have two larger sizes which sell for 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this country only at our store—The Rexall Store. O. L. Reincke.

The Acquisition of Riches

To get rich at all hazards, and to get rich quick if possible seems to be the object to which most men are bending their energies now-a-days. Even

"The humble man and yonder who is working in the ditch, Has the hope within him hidden that some day he may be rich; And forgetting all the seasons that so foolishly were spent, He keeps hoping he may profit by some lucky accident."

If it were not so, many a man who is now able to prey upon the credulity of his fellows would be compelled to seek other employment. The Chief Post Office Inspector of the City of New York reports that last year "Members of the Sucker List" lost seventy-seven millions of dollars investing in the get-rich-quick scheme; and it is safe to say that all the "suckers" were not caught on the other side of the line. The man who goes through life "taking a flyer" at this and that under the impression that he will some day "strike it rich" is in 999 times out of 1000 only wasting his money and making rapid preparation for an old age of humiliation and penury. The sooner he awakes to the fact that there is no certain short cut to riches, and that the "lucky accident" does not happen to one in one thousand, the better it will be for himself and his family. The only safe plan to adopt, if he hopes to have a competency in his old age, is to live within his income and to systematically lay up something from his earnings no matter how small the amount may be. If he is living beyond his means he should keep in mind Mowbray's statement, which was something like this: "I came 20 shillings, expenditure 20 shillings and 6 pence, result misery; expenditure 20 shillings and 6 pence, result happiness." If he cannot do more, he should make absolutely certain of an old age of comfort and happiness, which he may do if he will avail himself of the opportunity presented by the Canadian Government Annuities Act, in regard to which information may be obtained at any Post Office or on application to the Superintendent, Post Office Annuities, Ottawa. There is no other plan for the purpose which will give him anything like the same return. So long as his present payment schedule is in Canada, whether he is naturalized or not, he is eligible to make the purchase.

No Cause To Doubt

A Statement of Facts Backed by a Strong Guarantee

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to this we will return the money paid for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

Rexall Remedies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, night or day; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous activity.

Rexall Remedies are unsurpassable and ideal for the use of children, old, feeble and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets 10 cents, 36 tablets 25 cents and 90 tablets 50 cents. Remember, you can obtain Rexall Remedies in Clareholm only at our store, The Rexall Store. O. L. Reincke.
